

To whom it may concern,

I'm sure the republican party, after all their griping over Fahrenheit 9/11 "propaganda" is loving this. You are being neither fair nor honest if you do not show a "propaganda" film for both sides. Since obviously this campaign is over sheer partisanship, by showing only one side of the story you are showing your true unfair colors.

Wait, here's an idea, why don't you provide information that actually tells the truth! Tell the people who voted for what and why. Why the candidates supported such legislation or did not. This is what the people would really respond to. I am so tired of partisan adds, they drive me crazy. It works for the polls but it doesn't work for the american people that see through the BS.

To Senators Graham and Nelson,  
I know you will do all you can on this issue.

To Congressman Young,  
Show some sack and stand up for your constituency, not just your damn party. I pay attention to your voting record and you are fooling no one. Do what is right.
